

Intellectual Property Protection

Department of Intellectual Property Protection provides professional and legal services for the protection and commercialisation of intellectual property and ensures comprehensive support for management and administration of industrial property rights of the Technical University of Košice.

Department of Intellectual Property Protection provides:

- advisory and consulting services in the field of copyright, rights related to copyright and industrial property rights
- legal support in the preparation of contracts related to copyright and industrial property rights
- representation in administrative proceedings before the Industrial Property Office of the Slovak Republic and foreign intellectual property offices (administration of patent applications, applications for the registration of a utility model, design, trademark, and any acts relating to industrial property rights registered at the Industrial Property Office of the Slovak Republic and other foreign offices)
- maintaining the central register of industrial property rights (patents, supplementary protection certificates, utility models, designs, trademarks, etc.)
- processing, reviewing and guaranteeing the internal regulations of the Technical University of Košice related to intellectual property rights
